Languages

Spanish (native)

English (B2)

Summary

Agronomist with over 4 years of national and international experience in Uruguay and Australia, specializing in crop monitoring, irrigation, soil management, fertilization, and sustainable farming practices. Experienced working with cotton, wheat, barley, canola, sorghum, soybean, alfalfa, oats, ryegrass, sugar cane, and livestock production.

Career history

Farm Manager / Agronomist – Estancia Cuaro
Uruguay | Feb 2020 – Dec 2022

Key responsibilities

- Managed daily crop and livestock operations across a mixed farming system involving beef cattle and sheep production.
- Assisted with livestock handling, feeding, paddock rotation, and general herd and flock management.
- Monitored pasture performance and crop development, including soybean, oats and ryegrass.

Achievements

- Improved decision-making by closely tracking soil conditions, pasture growth and crop performance.

Irrigation & Crop Production Assistant– Egelabra Farm
Warren - NSW | Feb 2023 – Feb 2025

Key responsibilities

- Monitored cotton, wheat, barley, canola, sorghum and alfalfa crops throughout the growing season.
- Assisted with irrigation scheduling, fertilization programs and crop protection applications.

Achievements

- Developed hands-on experience in large-scale irrigated broadacre farming under Australian conditions.
- Strengthened practical knowledge of cotton and alfalfa nutrition, irrigation management and crop performance assessment.
